

### Writing Curriculum

Pupils' writing skills are developed through extending their vocabulary and grammar skills progressively from year to year. High quality modelling of writing is integral in developing pupil's ability to think independently when creating their own pieces of writing. We understand how important it is for children to leave primary school as effective writers, who can write for a range of purposes. We also understand how important it is for our pupils to have a love of writing. We have therefore ensured that the writing journey our pupils experience is a successful one and prepares them for the next stage of their education.

### Implementation

All children in the Foundation Stage also have a variety of opportunities to write within their continuous provision activities. Within each unit of work, carefully sequenced lessons ensure that prior learning of grammar, punctuation and spelling is revisited and developed.

(ABC)  
English

Appropriate scaffolding and support is put in place for all children who require it and teacher's planning identifies those who would benefit most from this.

Central to the writing process is exposing the children to high-quality written texts on which to base their own written work. These texts are chosen to ensure that a wide variety of genres and styles are covered.
